Positions on the ballot

Positions define the election's regions: pick MP and every constituency in scope holds a race; pick MCA and every ward does. Anything above the scope is out of play. Custom positions are welcome too.

- ☐ President — National level — outside this election's scope
- ☑ **Governor** — County level
- ☑ **Senator** — County level
- ☑ **Woman Representative** — County level
- ☑ **Member of Parliament** — Constituency level
- ☑ **MCA** — Ward level

Responsive reference

How the tenant workspace reflows on a phone — build reference, not a separate app. Same components, same tokens.

REFLOW RULES

1. Sidebar collapses to a bottom tab bar
2. Tables become stacked cards
3. The station drawer becomes a full-screen sheet
4. Quick-edit dialogs become bottom sheets
5. Hit targets never smaller than 44px

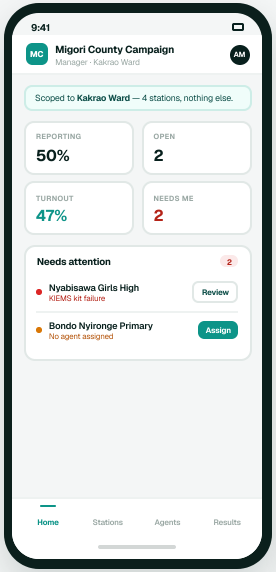

Responsive reference

How the tenant workspace reflows on a phone — for the build

Reference · 390px frames

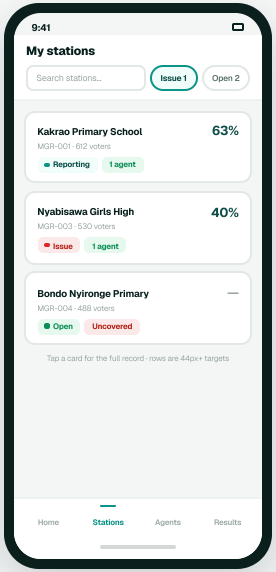

AM

Reference for the build — **the same components reflow**: auto-fit grids drop to one column, the sidebar becomes a bottom tab bar, tables become cards, the drawer and dialogs become sheets. Shown as the Manager role, the heaviest field user.

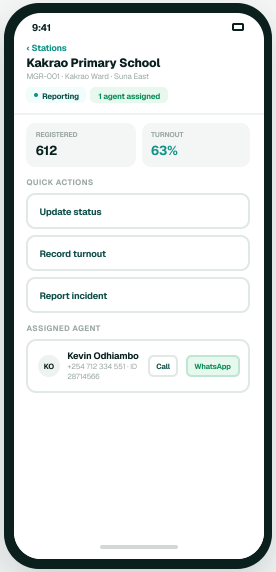

01 · Manager home

Sidebar → bottom tab bar; KPI grid drops to 2-up.

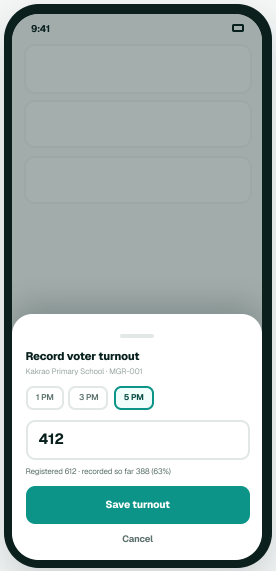

02 · My stations

The table becomes stacked cards; filters become chips.

03 · Station record

The drawer becomes a full-screen sheet; contact stays one tap away.

04 · Quick edits

Dialogs become bottom sheets — thumb-reach, 44px+ save button.
